(57) **CLAIM**

The ornamental design for a display screen or portion thereof with a graphical user interface for a dual-chamber washer disinfector system as shown.

DESCRIPTION

FIG. **1** is a front view of the display screen or portion thereof with a graphical user interface for a dual-chamber washer disinfector system in a first sequence of an animation according to claimed design;

FIG. **2** is a front view of the display screen or portion thereof with a graphical user interface for a dual-chamber washer disinfector system in a second sequence of the animation of FIG. **1**;

FIG. **3** is a front view of the display screen or portion thereof with a graphical user interface for a dual-chamber washer disinfector system in a third sequence of the animation of FIG. **1**; and,

FIG. **4** is a front view of the display screen or portion thereof with a graphical user interface for a dual-chamber washer disinfector system in a fourth sequence of the animation of FIG. **1**.

The dot-dash-dot broken lines illustrate a display screen, which is the environment of the design, and which forms no part of the claimed design. The remaining even-length broken lines, which make up portions of the graphical user interface, form no part of the claimed design.

The appearance of the figures sequentially transitions between FIGS. **1-4**. The process or period in which one image transitions to another forms no part of the claimed design.
