(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface as shown and described.

DESCRIPTION

The file of this patent contains at least one drawing/photograph executed in color. Copies of this patent with color drawing(s)/photograph(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. **1** is a front view of the first image in a sequence of a display screen or portion thereof with graphical user interface showing my new design, according to a first embodiment;

FIG. **2** is a front view of the second image thereof;

FIG. **3** is a front view of the third image thereof;

FIG. **4** is a front view of the fourth image thereof;

FIG. **5** is a front view of the fifth image thereof;

FIG. **6** is a front view of the first image in a sequence according to a second embodiment;

FIG. **7** is a front view of the second image thereof;

FIG. **8** is a front view of the third image thereof;

FIG. **9** is a front view of the fourth image thereof; and,

FIG. **10** is a front view of the fifth image thereof.

The outermost broken lines illustrate a display screen or portion thereof and form no part of the claimed design. The dot-dash broken lines in the graphical user interface represent the bounds of the claimed design and form no part of the claimed design. The low contrast portion inside the area surrounded by the dot-dash broken lines forms no part of the claimed design.

The appearance of the graphical user interface transitions between images shown in FIGS. **1-5** and FIGS. **6-10**. The process or period in which one image transitions to another forms no part of the claimed design.
