Description

- (1) FIG. 1 is a bottom front perspective view of a shoe showing my new design; and,
- (2) FIG. 2 is a bottom view thereof.
- (3) The different shading techniques are used to better show the shape and configuration of the

tread elements and outsole base surface, and are not meant to signify a contrast in shading, a difference in material, or any other symbolic representation. The broken line immediately adjacent to and surrounding the shaded area defines the peripheral bounds of the claimed design and forms no part thereof. The broken lines depicting the remainder of the shoe form no part of the claimed design.

Claims

The ornamental design for a shoe as shown and described.
