## Description

- (1) FIG. 1 is a front view of the display screen or portion thereof with a graphical user interface for a dual-chamber washer disinfectant system in a first sequence of an animation according to claimed design;
- (2) FIG. 2 is a front view of the display screen or portion thereof with a graphical user interface for a dual-chamber washer disinfectant system in a second sequence of the animation of FIG. 1;
- (3) FIG. 3 is a front view of the display screen or portion thereof with a graphical user interface for a dual-chamber washer disinfectant system in a third sequence of the animation of FIG. 1; and,
- (4) FIG. 4 is a front view of the display screen or portion thereof with a graphical user interface for a dual-chamber washer disinfectant system in a fourth sequence of the animation of FIG. 1.
- (5) The dot-dash-dot broken lines illustrate a display screen, which is the environment of the design, and which forms no part of the claimed design. The remaining even-length broken lines, which make up portions of the graphical user interface, form no part of the claimed design.
- (6) The appearance of the figures sequentially transitions between FIGS. 1-4. The process or period in which one image transitions to another forms no part of the claimed design.

## Claims

The ornamental design for a display screen or portion thereof with a graphical user interface for a dual-chamber washer disinfectant system as shown.
