(57) **CLAIM**

The ornamental design for a self cleaning docking station for autonomous guided deep learning cleaning apparatus as shown and described.

DESCRIPTION

FIG. 1 is a top, right perspective view of a self cleaning docking station for autonomous guided deep learning cleaning apparatus showing our new design; FIG. 2 is a front elevation view thereof; FIG. 3 is a rear elevation view thereof; FIG. 4 is a left-side elevation view thereof; FIG. 5 is a right-side elevation view thereof; FIG. 6 is a top plan view thereof; and, FIG. 7 is a bottom plan view thereof.

The invention is shown together with environmental structure in broken lines, the environmental structure forming no part of the claimed design. The broken lines show portions of the self cleaning docking station for autonomous guided deep learning cleaning apparatus that form no part of the claimed design.
