## Description

- (1) FIG. 1 is a perspective view showing a boom for agricultural machine according to our new design in the context of an example self-propelled sprayer vehicle;
- (2) FIG. 2 is a perspective view of the boom for agricultural machine depicted in FIG. 1 shown in isolation;
- (3) FIG. 3 is a first side elevational view thereof;
- (4) FIG. 4 is a second side elevational view thereof;
- (5) FIG. 5 is a first plan view thereof;
- (6) FIG. 6 is a second plan view thereof;
- (7) FIG. 7 is a first end elevational view thereof, shown enlarged for clarity;
- (8) FIG. 8 is a second end elevational view thereof, shown enlarged for clarity;
- (9) FIG. 9 is a perspective view showing a boom for agricultural machine according to another embodiment of our new design in the context of an example self-propelled sprayer vehicle and shown at an opposite side of the vehicle as compared to FIG. 1; and,
- (10) FIG. 10 is a first side elevational view thereof, all other views being mirror images of FIGS. 2 and 4-8 above.
- (11) The broken line representations in the figures depict unclaimed environment and form no part of the claimed design.

## Claims

The ornamental design for a boom for agricultural machine, as shown and described.

---
