DESCRIPTION

FIG. 1 is a front perspective view of a first element of an electrical assembly showing my new design; FIG. 2 is a front elevation view thereof; FIG. 3 is a right side elevation view thereof; FIG. 4 is a left side elevation view thereof; FIG. 5 is a top plan view thereof; FIG. 6 is a bottom plan view thereof; FIG. 7 is a front perspective view of a second element of an electrical assembly that is positioned between two symmetrically identical first elements; FIG. 8 is a front elevation view thereof; FIG. 9 is a right elevation view thereof; FIG. 10 is a left elevation view thereof; FIG. 11 is top plan view thereof; FIG. 12 is a bottom plan view thereof; FIG. 13 is a front perspective view of the electrical assembly showing two symmetrically identical first elements; FIG. 14 is a front perspective view of the electrical assembly showing two symmetrically identical first elements and one second element positioned therebetween; and, FIG. 15 is a front perspective view of the electrical assembly showing two symmetrically identical first elements and a plurality of second elements positioned therebetween. The broken lines shown in the figure depict unclaimed internal features that form no part of the claimed design.
