Description

(1) FIG. 1 is a front perspective view of a first element of an electrical assembly showing my new design;
(2) FIG. 2 is a front elevation view thereof;

- (3) FIG. 3 is a right side elevation view thereof;
- (4) FIG. 4 is a left side elevation view thereof;
- (5) FIG. 5 is a top plan view thereof;
- (6) FIG. 6 is a bottom plan view thereof;
- (7) FIG. 7 is a front perspective view of a second element of an electrical assembly that is positioned between two symmetrically identical first elements;
- (8) FIG. 8 is a front elevation view thereof;
- (9) FIG. 9 is a right elevation view thereof;
- (10) FIG. 10 is a left elevation view thereof;
- (11) FIG. 11 is top plan view thereof;
- (12) FIG. 12 is a bottom plan view thereof;
- (13) FIG. 13 is a front perspective view of the electrical assembly showing two symmetrically identical first elements;
- (14) FIG. 14 is a front perspective view of the electrical assembly showing two symmetrically identical first elements and one second element positioned therebetween; and,
- (15) FIG. 15 is a front perspective view of the electrical assembly showing two symmetrically identical first elements and a plurality of second elements positioned therebetween.
- (16) The broken lines shown in the figure depict unclaimed internal features that form no part of the claimed design.

Claims

The ornamental design for an electrical assembly, as shown and described.
