(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

1. Display screen or portion thereof with graphical user interface

1.0 : Front

The dot-dash broken lines define the bounds of the claimed design and form no part thereof. The outermost perimeter shown in evenly-dashed broken lines illustrates an electronic device, and the evenly-dashed broken line rectangle within the outermost perimeter illustrates a display screen or portion thereof. None of the broken lines form part of the claimed design.
