## Description

- (1) FIG. 1 is a perspective view of a universal bracket assembly of the present invention having a first bracket element in an assembled condition;
- (2) FIG. 2 is a top plan view of the universal bracket assembly and the first bracket element;
- (3) FIG. 3 is a rear elevation view of the universal bracket assembly and the first bracket element; the front elevation view being a mirror thereof;
- (4) FIG. 4 is a right side elevation view of the universal bracket assembly and the first bracket element; the left side elevation view being a mirror image thereof; and,
- (5) FIG. 5 is a perspective view of the universal bracket assembly comprising first and forth bracket elements.
- (6) The broken line showing portions of the first bracket element and the fourth bracket element is included for the purpose of illustrating portions of the universal bracket assembly and forms no part of the claimed design.

## Claims

The ornamental design for a universal bracket assembly as shown and described.
