Description

- (1) The file of this patent contains at least one drawing executed in color. Copies of this patent with color drawings will be provided by the Office upon request and payment of the necessary fee.
- (2) The Sole FIGURE is a front view of a display screen with graphical user interface embodying the new design.
- (3) The outermost broken lines depict the display screen with graphical user interface in which the design is embodied that form no part of the claimed design. The remaining broken lines illustrate portions of the graphical user interface that form no part of the claimed design.

Claims

The ornamental design for a display screen with graphical user interface as shown and described.
