Description

- (1) FIG. 1 is a front view of a display screen or portion thereof with a multi-state graphical user interface showing a state of the multi-state graphical user interface showing the claimed design;
- (2) FIG. 2 is another state thereof;
- (3) FIG. 3 is another state thereof; and,
- (4) FIG. 4 is a front view of an electronic device having a display screen with the multi-state graphical user interface of FIG. 1 applied to the display screen. The multi-state graphical user interface designs of FIGS. 2 and 3 may be similarly applied thereto.
- (5) The outer broken lines in the figures show a display screen or portion thereof, or an electronic device having a display screen, and form no part of the claimed design. The other broken lines in the figures show portions of the multi-state graphical user interface that form no part of the claimed design.
- (6) The appearance of the multi-state graphical user interface changes between the images shown in FIGS. 1-3. The process or period in which one image changes from one state to another forms no part of the claimed design.

Claims

The ornamental design for an electronic device with multi-state graphical user interface as shown and described.
