(57) **CLAIM**

The ornamental design for a handle for machine doors as shown and described.

**DESCRIPTION**

1. Handle for machine doors

1.1 : Front

1.2 : Right

1.3 : Top

1.4 : Left

1.5 : Back

1.6 : Bottom

Handle for machine doors made of an element for a closure panel and an element for a shaft; said elements being composed of a box-shaped base from which abuts a v-shaped profile that covers the base and that creates an appendix that creates a cavity; Furthermore, said element for the shaft is a parallelepiped having a front elevation.

The broken lines in the Reproductions show portions of the handle for machine doors which form no part of the claimed design.
