(57) **CLAIM**

The ornamental design for a display screen or portion thereof with animated graphical user interface as shown and described.

DESCRIPTION

The file of this patent contains at least one drawing executed in color. Copies of this patent with color drawings will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of a display screen or portion thereof with animated graphical user interface showing a first image of the claimed design;

FIG. 2 is a second image thereof;

FIG. 3 is a third image thereof; and,

FIG. 4 is a fourth image thereof.

The outer peripheral broken lines illustrate a display screen or portion thereof and forms no part of the claimed design. The appearance of the animated graphical user interface transitions between the images shown in FIGS. 1-4.

The process or period in which one image changes from one state to another forms no part of the claimed design.
