(57) **CLAIM**

The ornamental design for an optical fiber alignment member as shown and described.

DESCRIPTION

FIG. **1** is a front view of an optical fiber alignment member of our new design;
FIG. **2** is a rear view thereof;
FIG. **3** is a top plan view thereof;
FIG. **4** is a bottom view thereof;
FIG. **5** is a right side view thereof;
FIG. **6** is a left side view thereof;
FIG. **7** is a front perspective view thereof;
FIG. **8** is a rear perspective view thereof; and,
FIG. **9** is a front perspective view thereof in use.
The broken lines show portions of an optical fiber alignment member that form no part of the claimed design.
The alternate long and short dash lines are merely the boundary lines between the claimed parts and the non-claimed parts and form no part of the claimed design.
