Description

- (1) FIG. **1** is a top front perspective view of a dust collecting hood showing a first embodiment of my new design;
- (2) FIG. **2** is a front elevational view thereof;
- (3) FIG. **3** is a rear elevational view thereof;
- (4) FIG. **4** is a left elevational view thereof;
- (5) FIG. **5** is a right elevational view thereof;
- (6) FIG. **6** is a top elevational view thereof;
- (7) FIG. **7** is a bottom elevational view thereof;
 - (8) FIG. 8 is an exploded view illustrates that dust collecting hood is able to be assembled to a first

type of fluid sprayer and a suction tube of a vacuum cleaner under a first operational state;

- (9) FIG. **9** illustrates that the dust collecting hood is in use under the first operation state, where the dust colleting hood is assembled to the first type of the fluid sprayer and the suction tube of a vacuum cleaner;
- (10) FIG. **10** is another exploded view illustrates that dust collecting hood is able to be assembled to a second type of fluid sprayer and the suction tube of the vacuum cleaner under a second operational state;
- (11) FIG. **11** illustrates that the dust collecting hood is in use under the second operational state, where the dust collecting hood is assembled to the second type of the fluid sprayer and the suction tube of the vacuum cleaner; and,
- (12) FIG. **12** illustrate that the dust collecting hood in use, where the dust collecting hood is assembled to another fluid sprayer and non-woven bag.
- (13) The broken lines illustrate environmental structures which form no part of the claimed design.

Claims

The ornamental design for a dust collecting hood as shown and described.
