DESCRIPTION

FIG. 1 is a front-perspective view of a cellphone-pocket bag; FIG. 2 is a front view thereof; FIG. 3 is a rear view thereof, which is an opposite side from the front view in FIG. 2; FIG. 4 is a left-side view thereof, which is opposite side from the right-side view of FIG. 5 and which a left side relative to the front view in FIG. 2; FIG. 5 is a right-side view thereof, which is opposite side from the left-side view of FIG. 4 and which a right side relative to the front view in FIG. 2; FIG. 6 is a top view thereof, which is opposite the bottom view in FIG. 7; and, FIG. 7 is a bottom view thereof, which is opposite the top view in FIG. 6.

The cellphone-pocket bag includes a front section having multiple pockets (illustrated as horizontal broken lines in the front section of FIG. 2, for instance) and that can extend from approximately the chest area to a waist area of a human subject, shoulder sections extending from either sides of the front section to the neck area of the human subject, and a neck section extending around the human subject to connect together the shoulder sections, as illustrated in FIGS. 1-7. The broken lines of the drawing represent portions of the cellphone-pocket bag that form no part of the claimed design.
