CLAIM

The ornamental design for a display panel of a programmed computer system with a graphical user interface, as shown and described.

DESCRIPTION

The patent or application file contains a least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a view of a first embodiment of a display panel of a programmed computer system with a graphical user interface; and,

FIG. 2 is a view of a second embodiment of a display panel of a programmed computer system with a graphical user interface.

The outermost broken line showing an electronic device illustrates environment and forms no part of the claimed design. The broken lines within the display panel illustrate portions of the graphical user interface that form no part of the claimed design. The white space in FIG. 2 (a drawing executed in color) forms no part of the claimed design.
