(57) **CLAIM**

The ornamental design for a display screen or portion
thereof with animated graphical user interface as shown and
described.

DESCRIPTION

The file of this patent contains at least one drawing/photo-
graph executed in color. Copies of this patent with color
drawing(s)/photograph(s) will be provided by the Office
upon request and payment of the necessary fee.

FIG. 1 is a front view of a display screen or portion thereof
with animated graphical user interface showing a first image
of the claimed design;

FIG. 2 is a second image thereof;

FIG. 3 is a front view of another embodiment of a display
screen or portion thereof with animated graphical user
interface showing a first image of the claimed design; and,
FIG. 4 is a second image thereof.

The outermost broken lines in the figures show a display
screen or portion thereof, and form no part of the claimed
design. The other broken lines in the figures show portions
of the animated graphical user interface that form no part of
the claimed design.

The appearance of the animated image sequentially transi-
tions between the images shown in FIGS. 1 and 2, and FIGS.
3 and 4, respectively. The process or period in which one
image transitions to another forms no part of the claimed
design.
