Description

(1) FIG. 1 is a front, right, top isometric view of an electrical distribution board showing the new design;

- (2) FIG. 2 is a front view thereof;
- (3) FIG. 3 is a rear view thereof;
- (4) FIG. 4 is a right side view thereof;
- (5) FIG. 5 is a left side view thereof;
- (6) FIG. 6 is a top view thereof;
- (7) FIG. 7 is a bottom view thereof;
- (8) FIG. 8 is a front view thereof, showing cables installed; and,
- (9) FIG. 9 is a front, right, top isometric view thereof, showing the electrical distribution board installed within a wall.
- (10) The broken lines shown in the drawings represent portions of the electrical distribution board that form no part of the claimed design. In addition, the broken lines in FIG. 8 show environment in the form of cables installed, and in FIG. 9 show environment in the form of a wall within which the electrical distribution board is installed, which also form no part of the claimed design. The electrical distribution board is shown with a symbolic break in parallel dash-dot lines. The appearance of any portion of the article between the break lines forms no part of the claimed design.

Claims

The ornamental design for an electrical distribution board, as shown and described.
