USPC D13/123, 133, 160, 162, 177, 182
(Continued)

FIG. 1 is a front, right, top isometric view of an electrical distribution board showing the new design; FIG. 2 is a front view thereof; FIG. 3 is a rear view thereof; FIG. 4 is a right side view thereof; FIG. 5 is a left side view thereof; FIG. 6 is a top view thereof; FIG. 7 is a bottom view thereof; FIG. 8 is a front view thereof, showing cables installed; and, FIG. 9 is a front, right, top isometric view thereof, showing the electrical distribution board installed within a wall. The broken lines shown in the drawings represent portions of the electrical distribution board that form no part of the claimed design. In addition, the broken lines in FIG. 8 show environment in the form of cables installed, and in FIG. 9 show environment in the form of a wall within which the electrical distribution board is installed, which also form no part of the claimed design. The electrical distribution board is shown with a symbolic break in parallel dash-dot lines. The appearance of any portion of the article between the break lines forms no part of the claimed design.
