Description

(1) The sole FIGURE is a front view of a set of display screen portions with graphical user interfaces showing the claimed design.

(2) The peripheral dashed broken lines depict display screen portions and form no part of the

claimed design.

(3) The interior broken lines depict portions of the graphical user interface which form no part of the claimed design.

(4) The bracket indicates a set; the bracket itself forms no part of the claimed design. The elements of the set are arranged relatively on the drawing sheet for the convenience of illustration, and the placement of each element relative to another, or to the drawing sheet, forms no part of the claimed design.

(5) The claim is directed to the collective appearance of the set of display screen portions with graphical user interfaces.

Claims

The ornamental design for a set of display screen portions with graphical user interfaces, as shown and described.
