(57) **CLAIM**

The ornamental design for an open surgery instrument as shown and described.

DESCRIPTION

FIG. 1 is a bottom-front-left perspective view of an open surgery instrument.

FIG. 2 is a front view of the open surgery instrument.

FIG. 3 is a right side view of the open surgery instrument.

FIG. 4 is a rear view of the open surgery instrument.

FIG. 5 is a left side view of the open surgery instrument.

FIG. 6 is a top view of the open surgery instrument.

FIG. 7 is a bottom view of the open surgery instrument.

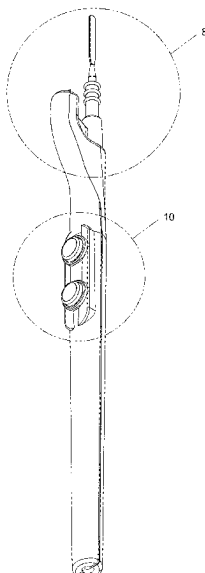

FIG. 8 is an enlarged partial bottom-front-left perspective view of area 8 in FIG. 1.

FIG. 9 is an enlarged partial front view of area 9 in FIG. 2; and,

FIG. 10 is an enlarged partial bottom-front-left perspective view of area 10 in FIG. 1.

The dash-dot-dot broken lines in FIGS. 1-2 and 8-10 illustrate boundaries of the enlarged views that form no part of the claimed design.

1 Claim, 10 Drawing Sheets
