(10)

Patent No.: US D1,090,413 S

(45)

Date of Patent: ** Aug. 26, 2025

(54) **MICRO SCALE ANAEROBIC DIGESTER FOR THE TREATMENT OF FOOD WASTE**

(71) Applicant: **Kieran Coffey**, Clonakilty (IE)

(72) Inventor: **Kieran Coffey**, Clonakilty (IE)

(**) Term: **15 Years**

(21) Appl. No.: **35/521,377**

(22) Filed: **Jan. 20, 2024**

(80) **Hague Agreement Data**

Int. Filing Date: **Jan. 20, 2024**

Int. Reg. No.: **DM/237816**

Int. Reg. Date: **Jan. 20, 2024**

Int. Reg. Pub. Date: **Jun. 21, 2024**

Primary Examiner — Tamara L Hahn

(57) **CLAIM**

The ornamental design for micro scale anaerobic digester for the treatment of food waste as shown and described.

DESCRIPTION

1. Micro scale anaerobic digester for the treatment of food waste

2. Micro scale anaerobic digester for the treatment of food waste

2.9 : Top

A micro scale anaerobic digester to treat food waste is shown. A sink is situated on top. Underneath the sink is a cabinet. To the rear of the cabinet is a cylindrical tank with an oval top. Food waste is placed in the sink and macerated with water. Macerated food waste flows to a balance tank inside the cabinet. Controls feed the macerated food waste into the digester to the rear. Food waste is converted into biogas and liquid bio-fertilizer through the process of anaerobic digestion. Biogas is used for cooking and heating and the liquid bio-fertilizer is used for growing food. Units are automated.
