Description

- (1) The patent file contains at least one drawing executed in color. Copies of this patent with a color drawing will be provided by the Office upon request and payment of the necessary fee.
- (2) FIGURE is a front view of a display screen with graphical user interface for glucose management showing our new design.
- (3) The outer broken lines illustrate a portion of a display screen and form no part of the claimed design. The text and numerals shown in broken line in the graphical user interface form no part of the claimed design.

Claims

The ornamental design for a display screen with graphical user interface for glucose management, as shown and described.
