(57) **CLAIM**

The ornamental design for a display screen with graphical
user interface for glucose management, as shown and
described.

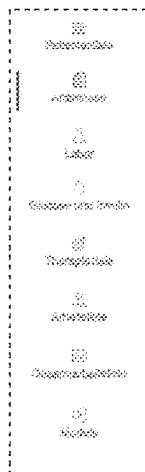

DESCRIPTION

The patent file contains at least one drawing executed in
color. Copies of this patent with a color drawing will be
provided by the Office upon request and payment of the
necessary fee.

FIGURE is a front view of a display screen with graphical
user interface for glucose management showing our new
design.

The outer broken lines illustrate a portion of a display screen
and form no part of the claimed design. The text and
numerals shown in broken line in the graphical user inter-
face form no part of the claimed design.
