(57) **CLAIM**

The ornamental design for a display screen or portion
thereof with animated graphical user interface as shown and
described.

DESCRIPTION

The file of this patent contains at least one drawing executed
in color. Copies of this patent with color drawings will be
provided by the Office upon request and payment of the
necessary fee.

FIG. 1 is a front view of a display screen or portion thereof
with animated graphical user interface showing a first image
of the claimed design; and,

FIG. 2 is a second image thereof.

The outer peripheral broken lines illustrate a display screen
or portion thereof and forms no part of the claimed design.
The appearance of the graphical user interface changes
between the images in FIGS. 1-2.

The process or period in which one image changes from one
state to another forms no part of the claimed design.
