(57) CLAIM

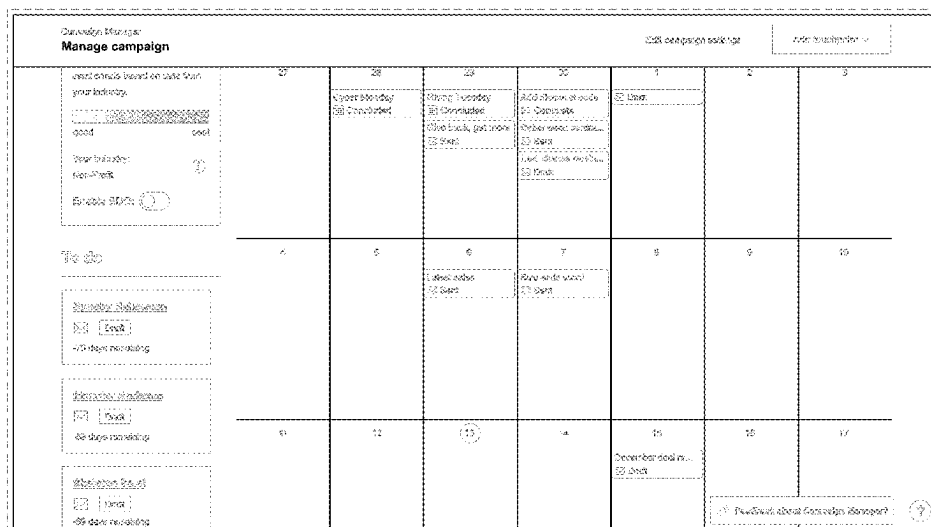

The ornamental design for a display device with a graphical user interface for presenting campaign edit option as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image in a sequence for a display device with a graphical user interface for presenting campaign edit option; and, FIG. 2 is a second image thereof.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-2. The process or period in which one image transitions to another image forms no part of the claimed design.

The outer vertically-oriented broken-line rectangle illustrates a display device and forms no part of the claimed design. The text and portions of the graphical user interface shown in broken lines form no part of the claimed design. The grey rectangle in FIG. 2 is a part of the claimed design.
