FATTY CADDY BOWL IN ONE**BACKGROUND OF THE INVENTION**

The present invention relates to smoking accessories 5 providing an end-user with a turnkey solution; specifically, one designed with silicone chambers suitable for pre-rolled cigarettes and a one-hit pipe, an area for ground cannabis or flower, and a built-in area suitable for storage of a disposable lighter, encapsulated in a brand ambassador with a closeable head. 10

SUMMARY OF THE INVENTION

Cannabis end-users need a few things; a lighter, a cannabis cigarette, maybe a one-hit bat, a place to secure medicine. The majority of cannabis dispensaries world-wide sell each of these products individually, and often in pairs. It's not uncommon for an individual to exit a dispensary with a bag containing every item listed above. The Fatty Caddy Bowl in One is the first device of its kind; in that it accommodates each of the above elements—in a self-contained stealth device. 15 20
