Description

(1) The file of this patent contains at least one drawing/photograph executed in color. Copies of this patent with color drawing(s)/photograph(s) will be provided by the Office upon request and payment of the necessary fee.

(2) FIG. 1 shows a front view of a display screen or portion thereof with a graphical user interface showing a first embodiment of the claimed design.

(3) FIG. 2 shows a front view of a display screen or portion thereof with a graphical user interface showing a second embodiment of the claimed design.

(4) FIG. 3 shows a front view of a display screen or portion thereof with a graphical user interface showing a third embodiment of the claimed design.

(5) FIG. 4 shows a front view of a display screen or portion thereof with a graphical user interface showing a fourth embodiment of the claimed design.

(6) FIG. 5 shows a front view of a display screen or portion thereof with a graphical user interface showing a fifth embodiment of the claimed design.

(7) FIG. 6 shows a front view of a display screen or portion thereof with a graphical user interface showing a sixth embodiment of the claimed design; and,

(8) FIG. 7 shows a front view of a display screen or portion thereof with a graphical user interface showing a seventh embodiment of the claimed design.

(9) The outermost broken lines in the figures show a display screen or portion thereof and form no part of the claimed design. The remaining broken lines showing portions of the graphical user interface in FIG. 2 form no part of the claimed design.

Claims

An ornamental design for a display screen with graphical user interface substantially as shown and described.
