(57) **CLAIM**

The ornamental design for a display screen with graphical user interface for the visual representation of data as shown and described.

DESCRIPTION

FIG. 1 is an illustration of a display screen with graphical user interface for the visual representation of data on a screen of a mobile device showing a first embodiment of the claimed design;

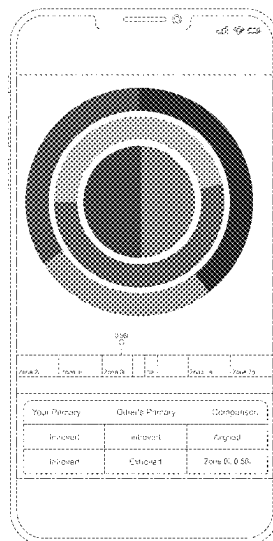

FIG. 2 is another display screen with graphical user interface for the visual representation of data on a screen of a computer showing the first embodiment of the claimed design;

FIG. 3 is an illustration of a display screen with graphical user interface for the visual representation of data on a screen of a mobile device showing a second embodiment of the claimed design; and,

FIG. 4 is another display screen with graphical user interface for the visual representation of data on a screen of a computer showing the second embodiment of the claimed design.

The claim is directed towards the large circular shaded elements, and all text and other indicia shown form no part of the claimed design. The dot-dash broken lines illustrate a portion of the display screen. The remaining broken lines represent portions of the graphical user interface and environment. All broken lines form no part of the claimed design.
