(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 illustrates a first image of a display screen with a graphical user interface; and,

FIG. 2 illustrates a second image of a display screen with a graphical user interface in a first sequence, where the first sequence transitions from the first image of the graphical user interface shown in FIG. 1 to the second image of the graphical user interface shown in FIG. 2.

The subject matter shown herein for the first sequence includes a process or period in which the graphical user interface shown on the display screen transitions from the first image shown in FIG. 1 to the second image shown in FIG. 2. This process or period in which one graphical user interface transitions to another graphical user interface forms no part of the claimed design.

The broken-line drawings of the display screen and other portions of the graphical user interface are for illustrative purposes only and form no part of the claimed design.
