USPC: D14/485-495

Description

(1) The FIGURE is a front view of a display screen with a graphical user interface for cybersecurity software according to the claimed design.

(2) The outermost broken line illustrates an electronic device, which is the environment of the design and forms no part of the claimed design. The second outermost broken line illustrates the display screen and forms no part of the claimed design. The remaining broken lines show portions of the graphical user interface for cybersecurity software and forms no part of the claimed design.

Claims

The ornamental design for a display screen with a graphical user interface for cybersecurity software, as shown and described.
