USPC: D14/485-488

Description

(1) The FIGURE is a front view of an image for a ventilator display screen with graphical user interface showing our new design.

(2) The peripheral dash-dot-dash lines illustrate a ventilator display screen or portion thereof and form no part of the claimed design. The broken lines within the peripheral dash-dot-dash lines illustrate portions of the ventilator display screen with graphical user interface, which form no part of the claimed design.

Claims

The ornamental design for a ventilator display screen with graphical user interface as shown and described.
