Description

- (1) FIG. 1 is a front view of a first image in a sequence of a display screen with animated graphical user interface for flight control showing my new design; and,
- (2) FIG. 2 is a front view of a second image thereof.
- (3) The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-2. The process or period in which one image transitions to another image forms no part of the claimed design.
- (4) The broken lines of uneven length show the display screen and form no part of the claimed

design.

(5) The lined shading in FIG. 2 indicates a contrast in appearance.

Claims

The ornamental design for a display screen with animated graphical user interface for flight control, as shown and described.
