Description

- (1) A portion of the disclosure of this patent document contains material which is subject to copyright protection. The copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the Patent and Trademark Office patent file or records, but otherwise reserves all copyright rights whatsoever.
- (2) FIG. 1 is a front view of a display screen or portion thereof with an animated graphical user interface showing a first image;
- (3) FIG. 2 is a front view of a display screen or portion thereof with an animated graphical user interface showing a second image;
- (4) FIG. 3 is a front view of a display screen or portion thereof with an animated graphical user interface showing a third image;
- (5) FIG. 4 is a front view of a display screen or portion thereof with an animated graphical user interface showing a fourth image;
- (6) FIG. 5 is a front view of a display screen or portion thereof with an animated graphical user interface showing a fifth image;
- (7) FIG. 6 is a front view of a display screen or portion thereof with an animated graphical user interface showing a sixth image;
- (8) FIG. 7 is a front view of a display screen or portion thereof with an animated graphical user interface showing a seventh image;
- (9) FIG. 8 is a front view of a display screen or portion thereof with an animated graphical user interface showing an eighth image;
- (10) FIG. 9 is a front view of a display screen or portion thereof with an animated graphical user interface showing a ninth image;
- (11) FIG. 10 is a front view of a display screen or portion thereof with an animated graphical user interface showing a tenth image;
- (12) FIG. 11 is a front view of a display screen or portion thereof with an animated graphical user interface showing an eleventh image;
- (13) FIG. 12 is a front view of a display screen or portion thereof with an animated graphical user interface showing a twelfth image;
- (14) FIG. 13 is a front view of a display screen or portion thereof with an animated graphical user interface showing a thirteenth image;
- (15) FIG. 14 is a front view of a display screen or portion thereof with an animated graphical user interface showing a fourteenth image;
- (16) FIG. 15 is a front view of a display screen or portion thereof with an animated graphical user interface showing a fifteenth image;
- (17) FIG. 16 is a front view of a display screen or portion thereof with an animated graphical user interface showing a sixteenth image; and,
- (18) FIG. 17 is a front view of a display screen or portion thereof with an animated graphical user interface showing a seventeenth image. The appearance of the animated graphical user interface sequentially transitions from FIG. 1 to FIG. 17. The process in which a figure transitions to another figure forms no part of the claimed design.
- (19) The dashed broken lines depict portions of the animated graphical user interface that form no part of the claimed design. The dot-dashed broken lines depict the display screen or portions thereof that form no part of the claimed design.

Claims

The ornamental design for a display screen or portion thereof with an animated graphical user interface, as shown and described.
