Description

- (1) The file of this patent contains at least one drawing/photograph executed in color. Copies of this patent with color drawing(s)/photograph(s) will be provided by the Office upon request and payment of the necessary fee.
- (2) FIG. 1 is a front view of a display screen or portion thereof with a group of graphical user interfaces showing the claimed design;
- (3) FIG. 2 is another embodiment thereof; and,
- (4) FIG. 3 is a front view of an electronic device having a display screen, with a graphical user interface of the group of graphical user interfaces of FIG. 1 applied to the display screen. Each of the graphical user interfaces and the group of graphical user interfaces designs of FIGS. 1 and 2 may be similarly applied thereto.
- (5) The broken lines in the figures show a display screen or portion thereof, or an electronic device having a display screen, and form no part of the claimed design.
- (6) Each of FIGS. 1 and 2 indicates a group. The elements of the group are arranged relatively on the drawing sheet for the convenience of illustration, and the placement of each element relative to another, or to the drawing sheet, forms no part of the claimed design.

Claims

The ornamental design for an electronic device with a group of graphical user interfaces as shown and described.
