(57) **CLAIM**

The ornamental design for a display screen with animated graphical user interface for card communication, as shown and described.

DESCRIPTION

FIG. 1 is a first image of a sequence for a display screen with animated graphical user interface for card communication showing the new design;

FIG. 2 is a second image thereof; and

FIG. 3 is a third image thereof.

FIG. 4 is a first image of a sequence for a display screen with an animated graphical user interface for card communication showing the new design in a different environment;

FIG. 5 is a second image thereof; and,

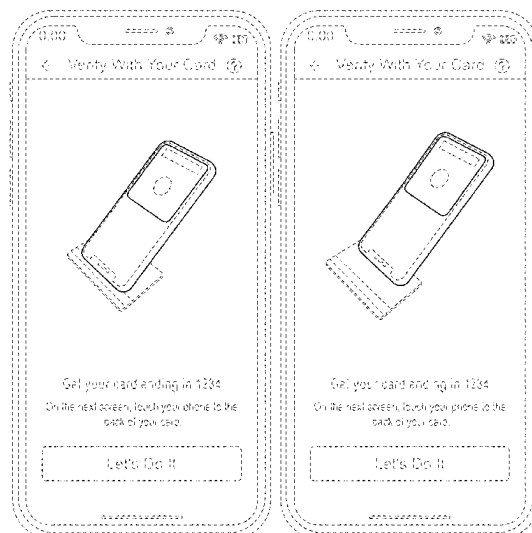

FIG. 6 is a third image thereof.

The appearance of the animated images sequentially transitions between the images shown in the drawings.

The process or period in which one image transitions to another forms no part of the claimed design.

The broken lines forming elements of a card communication display, an animated graphical user interface, and a card communication device shown in the drawings illustrate environmental subject matter and form no part of the claimed design.
