Description

(1) 1. Display screen panel with graphical user interface

(2) **1.0** : Front

(3) **1.0** is a front view of a display screen panel with graphical user interface showing our new design; solid lines represent the portions intended to be registered as a partial design, while elements not depicting the displayed area have been omitted from the drawing; the outer broken lines in the drawing show a display screen or portion thereof, and form no part of the claimed design; the dash-dot lines indicate boundaries between the areas for which registration is intended and those for which it is not.

Claims

The ornamental design for a display screen panel with graphical user interface as shown and described.
