(57) **CLAIM**

The ornamental design for hexagonal bioreactor support structure as shown and described.

DESCRIPTION

FIG. 1 is an isometric view of a hexagonal bioreactor support structure according to a first embodiment of the present invention;

FIG. 2 is a front elevational view of the structure thereof;

FIG. 3 is a side elevational view of the structure thereof;

FIG. 4 is an opposite side elevational view of the structure thereof;

FIG. 5 is a top plan view of the structure thereof;

FIG. 6 is a detailed bottom plan view of the structure thereof;

FIG. 7 is another isometric view of the structure thereof.

FIG. 8 is an isometric view of a hexagonal bioreactor support structure according to a second embodiment of the present invention;

FIG. 9 is a front elevational view of the structure thereof;

FIG. 10 is a side elevational view of the structure thereof;

FIG. 11 is an opposite side elevational view of the structure thereof;

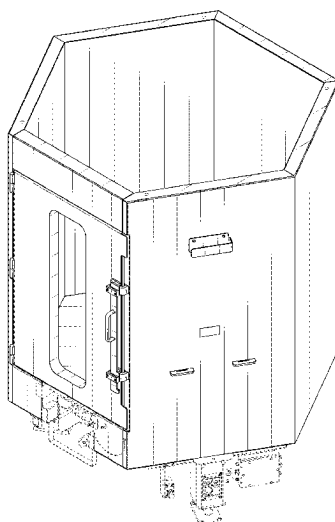

FIG. 12 is a top plan view of the structure thereof;

FIG. 13 is a detailed bottom plan view of the structure thereof; and,

FIG. 14 is another isometric view of the structure thereof.

The dash-dash broken lines depict portions of the hexagonal bioreactor support structure that form no part of the claimed design.

1 Claim, 14 Drawing Sheets
