Description

- (1) The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.
- (2) FIG. 1 shows two portions of a display screen with set of animated graphical user interfaces showing our new design;
- (3) FIG. 2 shows a second image thereof; and,
- (4) FIG. 3 shows a third image thereof.
- (5) The peripheral dashed broken lines illustrate a display screen or portion thereof or sheet material, and form no part of the claimed design. The appearance of the graphical user interface transitions between the images shown in FIGS. 1-3. The process or period in which one image transitions to another forms no part of the claimed design.
- (6) In FIGS. 1-3, the brackets indicate a set; the brackets themselves form no part of the claimed design. The elements of each set are arranged relatively on the drawing sheet for the convenience of illustration, and the placement of each element relative to another, or to the drawing sheet, forms no part of the claimed design.
- (7) The relative arrangement, placement or position of the graphical user interface on a display screen or portion thereof forms no part of the claimed design.
- (8) The claim is directed to the collective appearance of the set of animated graphical user interfaces as shown.

Claims

The ornamental design for a display screen or portion thereof with set of animated graphical user interfaces as shown and described.
