Description

- (1) The file of this patent contains at least one drawing/photograph executed in color. Copies of this patent with color drawing(s)/photograph(s) will be provided by the Office upon request and payment of the necessary fee.
- (2) FIG. 1 is a front view of a display screen or portion thereof with animated graphical user interface showing a first image of the claimed design;
- (3) FIG. 2 is a second image thereof;
- (4) FIG. 3 is a third image thereof; and,
- (5) FIG. 4 is a front view of an electronic device having a display screen with the animated graphical user interface of FIG. 1 applied to the display screen. The animated graphical user interface designs of FIGS. 2 and 3 may be similarly applied thereto.
- (6) The outer broken lines in the figures show a display screen or portion thereof, or an electronic device having a display screen, and form no part of the claimed design.
- (7) The appearance of the animated image sequentially transitions between the images shown in FIGS. 1-3. The process or period in which one image transitions to another forms no part of the claimed design.

Claims

The ornamental design for an electronic device with animated graphical user interface as shown and described.
