Description

(1) FIG. 1 is a front elevation view of a brake shim with surface having an appearance of a triaxial thread-weave pattern according to a first embodiment of the present design;

(2) FIG. 2 is a front perspective view of the brake shim with surface having an appearance of a triaxial thread-weave pattern of FIG. 1;

(3) FIG. 3 is a front elevation view of a brake shim with surface having an appearance of a triaxial thread-weave pattern according to a second embodiment of the present design;

(4) FIG. 4 is a front perspective view of the brake shim with surface having an appearance of a

triaxial thread-weave pattern of FIG. 3;

(5) FIG. 5 is a front elevation view of a brake shim with surface having an appearance of a triaxial thread-weave pattern according to a third embodiment of the present design;

(6) FIG. 6 is a front perspective view of the brake shim with surface having an appearance of a triaxial thread-weave pattern of FIG. 5;

(7) FIG. 7 is a front elevation view of a brake shim with surface having an appearance of a triaxial thread-weave pattern according to a fourth embodiment of the present design;

(8) FIG. 8 is a front perspective view of the brake shim with surface having an appearance of a triaxial thread-weave pattern of FIG. 7;

(9) FIG. 9 is a front elevation view of a brake shim with surface having an appearance of a triaxial thread-weave pattern according to a fifth embodiment of the present design;

(10) FIG. 10 is a front perspective view of the brake shim with surface having an appearance of a triaxial thread-weave pattern of FIG. 9;

(11) FIG. 11 is a front elevation view of a brake shim with surface having an appearance of a triaxial thread-weave pattern according to a sixth embodiment of the present design; and,

(12) FIG. 12 is a front perspective view of the brake shim with surface having an appearance of a triaxial thread-weave pattern of FIG. 11.

(13) In the drawings, the broken lines show portions of the brake shim that form no part of the claimed design.

Claims

The ornamental design for a brake shim with surface having an appearance of a triaxial weave pattern, as shown and described.
