CLAIM

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

The file of this patent contains at least one drawing executed in color. Copies of this patent with color drawings will be provided by the United States Patent and Trademark Office upon request and payment of the necessary fee.

FIG. 1 is a front view of a first image of a display screen with graphical user interface, illustrating our new design;

FIG. 2 is a front view of a second image thereof; and,

FIG. 3 is a front view of a third image thereof.

The appearance of the figures sequentially transitions between FIGS. 1-3. The process or period in which one image transitions to another forms no part of the claimed design.

(Continued)

The broken line rectangle showing the display screen illustrates portions of the display screen with graphical user interface that form no part of the claimed design.
