Description

- (1) FIG. 1 is a first image of a sequence for a display screen with animated graphical user interface for card communication showing the new design;
- (2) FIG. 2 is a second image thereof; and
- (3) FIG. 3 is a third image thereof.
- (4) FIG. 4 is a first image of a sequence for a display screen with an animated graphical user interface for card communication showing the new design in a different environment;
- (5) FIG. 5 is a second image thereof; and,
- (6) FIG. 6 is a third image thereof.
- (7) The appearance of the animated images sequentially transitions between the images shown in the drawings.
- (8) The process or period in which one image transitions to another forms no part of the claimed design.
- (9) The broken lines forming elements of a card communication display, an animated graphical user interface, and a card communication device shown in the drawings illustrate environmental subject matter and form no part of the claimed design.

Claims

The ornamental design for a display screen with animated graphical user interface for card communication, as shown and described.
