Description

- (1) The file of this patent contains at least one drawing executed in color. Copies of this patent with color drawings will be provided by the Office upon request and payment of the necessary fee.
- (2) FIG. 1 is a rear and right side perspective view of a first embodiment of the signature light for a vehicle rear tail lamp;

- (3) FIG. 2 is a rearside perspective view thereof;
- (4) FIG. 3 is a right side view thereof;
- (5) FIG. 4 is a left side view thereof;
- (6) FIG. 5 is a top view thereof;
- (7) FIG. 6 is a bottom view thereof;
- (8) FIG. 7 is a front and left side perspective view thereof; and,
- (9) FIG. 8 is a front view thereof.
- (10) The broken lines in the drawings indicate a boundary residing between claimed and unclaimed portions and form no part of the claimed design. The claimed design is indicated by the portions shown within the broken line boundaries, while the deemphasized, grayscale portions shown outside of the broken line boundary are environment and form no part of the claimed design. The claim includes a second embodiment comprised of a mirror image of the signature light for a vehicle rear tail lamp as shown in FIGS. 1-8.

Claims

The ornamental design for a signature light for a vehicle rear tail lamp, as shown and described.
