(57) **CLAIM**

The ornamental design for an electric rotary actuator dedi-
cated to automotive applications as shown and described.

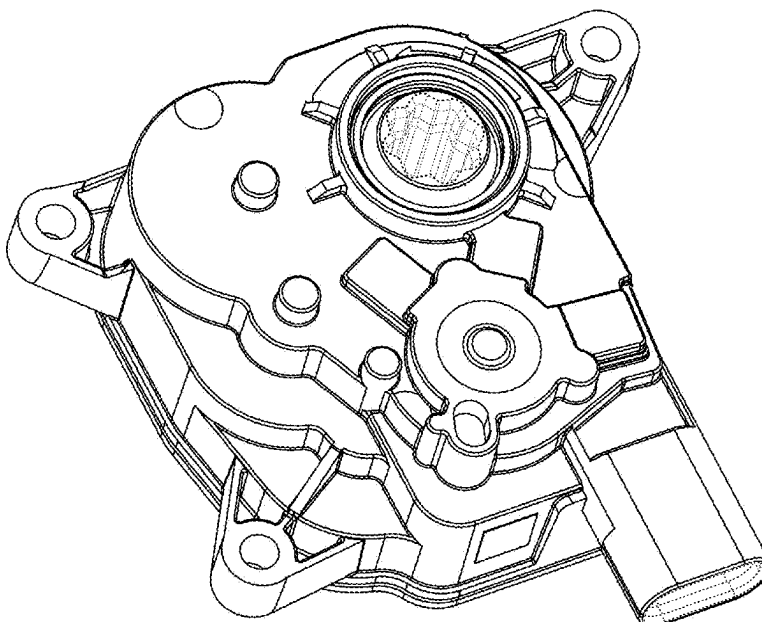

DESCRIPTION

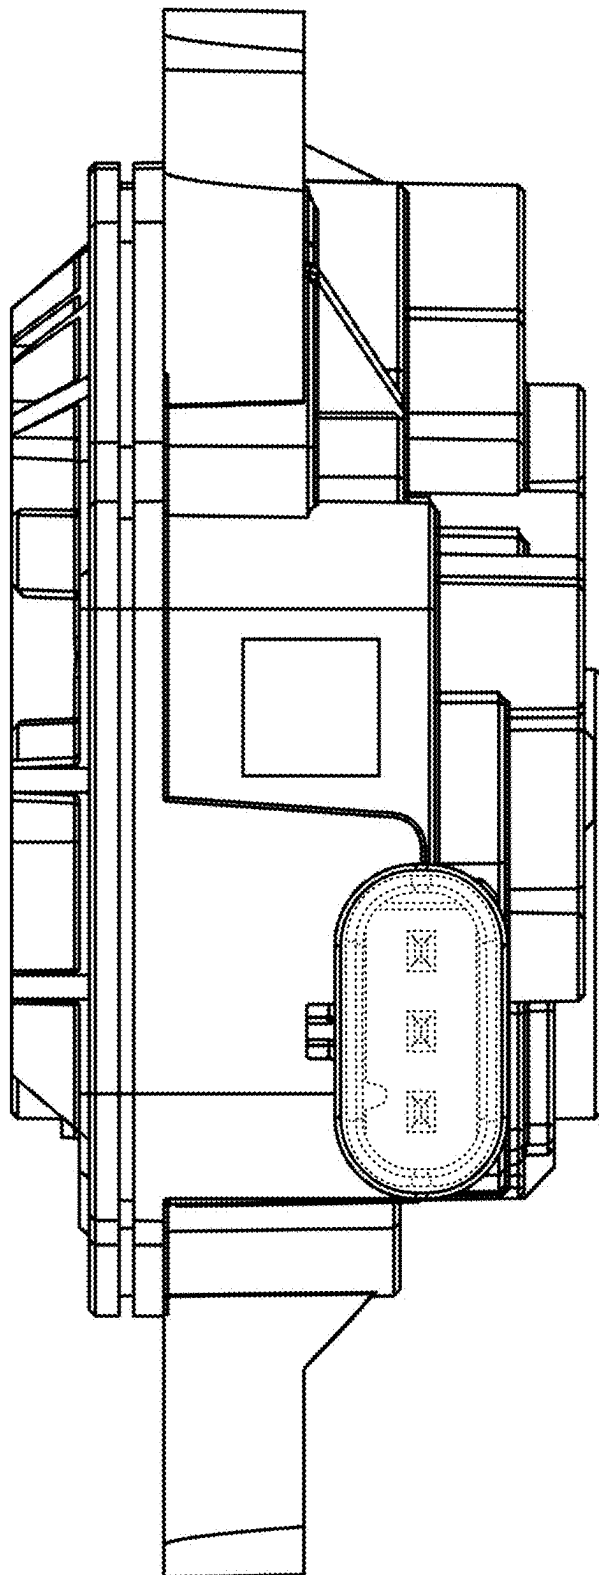

- 1.1** : Bottom
1.2 : Right
1.3 : Front
1.4 : Left
1.5 : Bottom right front perspective
1.6 : Back
1.7 : Bottom right back perspective

Rotary actuators dedicated to automotive applications espe-
cially for thermal management such as the position regula-
tion of water valves.

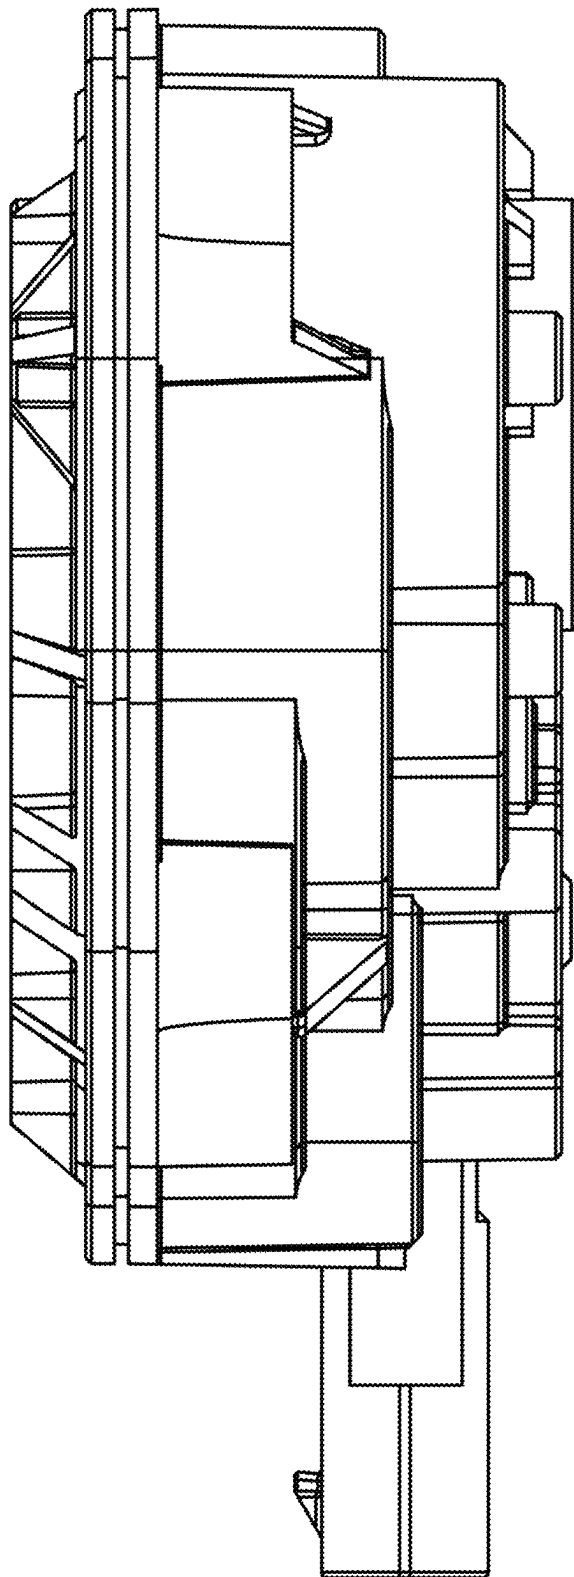

The broken lines in FIGS. **1.1**, **1.5**, **1.6**, and **1.7** illustrate
portions of the electric rotary actuator dedicated to automo-
tive applications that form no part of the claimed design.
