This article, located on the top plate of a washing machine,
is used to capture and remove lint and other debris from
laundry during the washing process; a right view is omitted
because it is a mirror image of the left view; reproduction 1.8
shows a state of use of the claimed design; reproduction 1.9
shows another state of use being combined with a washing
machine; the broken lines shown in reproductions 1.1 to 1.8
depict portions of the filter for washing machine that form no
part of the claimed design; the broken lines shown in
reproduction 1.9 depict environmental structure that form no
