Description

(1) The FIGURE is a front view of a mobile application development display screen with graphical user interface including a showing of a simulated mobile device screen, showing my new design.

(2) The dashed broken lines illustrate portions of the graphical user interface and form no part of the claimed design. The dot-dash broken lines illustrate the perimeter of a display screen and form no part of the claimed design.

Claims

The ornamental design for a mobile application development display screen with graphical user interface including a showing of a simulated mobile device screen, as shown and described.
