Description

(1) The FIGURE is a front view of a display screen or portion thereof with graphical user interface showing our new design.

(2) The dot-dash broken lines illustrate a display screen or portion thereof and form no part of the claimed design. The remaining broken lines illustrate portions of the display screen or portion thereof with graphical user interface that form no part of the claimed design.

(3) The two pairs of curved break lines illustrate symbolic breaks in horizontal dimension to

indicate indeterminate length, the curved break lines forming no part of the claimed design. The appearance of any portion of the article between the curved break lines forms no part of the claimed design.

(4) The dot-dash broken lines illustrate a display screen or portion thereof. The two pairs of wavy broken lines passing through the graphical user interface illustrate symbolic breaks in the article. The remaining broken lines illustrate portions of the graphical user interface. None of the broken lines forms part of the claimed design. The appearance of any portion of the article between the wavy break lines forms no part of the claimed design.

Claims

The ornamental design for a display screen or portion thereof with graphical user interface, as shown and described.
